4. Data Sources & Methodology

1. Executive Summary

This report presents a comprehensive SEO audit of **dr-webstudio.com** for a **Local Service (SAB) — freelance web development studio, bilingual es/en, Dominican Republic** site, generated on July 25, 2026. Findings combine technical, content, schema, performance, visual, and search-readiness evidence as available.

85/100

SEO HEALTH SCORE

Critical Issues Found:

1. **Info:** \$95/mo maintenance plan not surfaced on /pricing (no card, no links to its strong dedicated page)
2. **Info:** /es homepage mobile LCP unstable (2.9-7.0s across runs) — hydration stall from ~51KB unused JS in shared chunk 8478
3. **Info:** ContactPage JSON-LD: wrong slug url (/es/contact) + duplicate un-@id'd Person forking #james-karnes (contact/page.tsx)
4. **Info:** No confirmable Google Business Profile via search; Clutch 0 reviews — off-site remains the biggest lever (Local 52)
5. **Info:** ~21 hand-authored wrong-locale inline links in blog prose (missed by July generated-list rewrite)

Quick Wins:

1. Add 4th pricing card for \$95/mo plan + reciprocal links
2. Fix ContactPage node url + Person @id ref
3. Localize SearchAction urlTemplate (nodes.ts:195)
4. Service breadcrumb: use service.title[lang] not SEO title
5. Homepage FAQ block + FAQPage schema

2. Audit Categories

2.1 Technical SEO

Score: 92/100

What Works

- Real 404s all route families
- CSP enforcing + full security header set
- 10/10 hreflang pairs reciprocal, self-canonicals
- Typo-slug 308s single-hop
- SSR everywhere

Findings

Apex redirect chain 3-4 hops **Info**

http apex -> https apex -> www -> locale; known carryover

Recommendation: Collapse in Vercel dashboard domain config

CSP script-src 'unsafe-inline' **Low**

Present sitewide; not a regression

Recommendation: Nonce/hash migration if GTM/Stripe allow

2.2 Content Quality

Score: 78/100

What Works

- New constructoras/salones pages differentiated (878-1000 words)
- \$95/mo plan page specific and itemized
- Bilingual parity excellent, ES 10-20% richer

Findings

About bio thin (~187 words narrative) **Medium**

Photo shipped but text unchanged; no years/credentials/client count

Recommendation: Deepen bio in place (user declined separate hire page)

Self-reported stats lack third-party link **Medium**

'20+ Happy Clients', '5.0 Rating' link nowhere; Clutch shows 0 reviews

Recommendation: Link badges to a live review source once populated

llms.txt post at 1,513-word floor **Low**

Siblings average 2,500-3,500

Recommendation: Expand past 1,800 words

2.3 On-Page SEO

Score: **84/100**

What Works

- July title trims held (blog <=60 chars)
- H1s present sitewide incl. legal pages

Findings

Service breadcrumb name = brand-suffixed SEO title **Medium**

All 9 services x 2 locales; our-services/[slug]/page.tsx:115,145

Recommendation: Use service.title[lang] for crumb 3

~21 page/landing seo-doc titles 61-79 chars **Low**

Carryover awaiting user judgment (hand-crafted tails)

Recommendation: Review case-by-case

2.4 Schema / Structured Data

Score: **83/100**

What Works

- All 07-11 fixes held (auto WebPage, inlined Person, \$ consistency incl. \$95/mo UnitPriceSpecification)
- Zero parse errors on 23 pages
- No @id locale leaks in core nodes

Findings

ContactPage wrong slug + forked Person **Medium**

Live on /es/contacto: url /es/contact; duplicate Person; source contact/page.tsx (verified)

Recommendation: Localized url + @id ref to #james-karnes

SearchAction hardcoded /en/blog **Medium**

nodes.ts:195, shared #website node on ES pages

Recommendation: Localize or remove

mainEntityOfPage bare-URL @id **Low**

nodes.ts:380 vs WebPage @id \${url}#webpage

Recommendation: Point at #webpage

Org sameAs missing socials **Low**

CMS fields empty

Recommendation: Fill if profiles exist

2.5 Performance (CWV)

Score: **90/100**

What Works

- Desktop 89-100 (4/6 perfect)
- CLS 0-0.008 everywhere
- TTFB 9-22ms

- New avatar not an LCP factor (13KB AVIF, done ~270ms)

Findings

/es mobile LCP unstable 2.9-7.0s **High**

Poor on 2 of 3 runs; hydration stall, long tasks from chunk 8478 to 2.4-4.5s; /en/about-me flake cleared on re-runs (96 perf x2)

Recommendation: Local lighthouse trace; split/defer chunk 8478 (~51KB unused, sitewide)

Render-blocking stylesheets not reproduced **Info**

Prior ~450ms finding returned null on all pages this run

Recommendation: Confirm on second pass; tentatively resolved

2.6 AI Search Readiness

Score: **84/100**

What Works

- llms.txt Last-Updated + landing pages both locales
- Generated llms-full link lists 100% direct-200
- Crawler policy matches intent exactly
- SSR for all allowed crawlers

Findings

~21 wrong-locale inline links in blog prose **Medium**

14 EN + 7 ES hand-authored cross-refs; survive via 308; leak into llms-full

Recommendation: Extend July token-mutate script to prose links

No HowTo schema; declarative H2s **Low**

Process sections qualify; question-titled posts lack question H2s

Recommendation: Add HowTo; restate questions in H2s

2.7 Local SEO

Score: **52/100**

What Works

- City/industry pages pass doorway test (genuinely local content)
- SAB service-area copy matches schema
- Per-page Service entities

Findings

No confirmable GBP **Critical**

No listing surfaced via search (JS-scrape caveat); Maps CID unverifiable

Recommendation: USER: verify/claim at business.google.com

Reviews thin **High**

Clutch 0 reviews; Trustpilot 403-unverifiable; no GBP reviews found

Recommendation: 3-5 Google reviews + 2-3 Clutch from past clients

Citation footprint thin/mismatched **Medium**

Clutch, Expat.com, 2 blog mentions, personal LinkedIn only

Recommendation: GoodFirms, DesignRush, DR directories, consistent NAP

areaServed identical across landing pages; 4-decimal geo; generic footer locality **Low**

Polish items

Recommendation: City-primary areaServed; 5-decimal geo; 'Punta Cana, RD' in footer

2.8 SXO

Score: **80/100**

What Works

- Homepage + city landings SERP-aligned
- WhatsApp/tel CTAs live sitewide
- About photo + stats genuine improvement

Findings

\$95/mo plan invisible on /pricing High

Strong dedicated page exists, zero cross-links; figure only inside FAQ text

Recommendation: 4th pricing card + reciprocal links

Pricing page vs informational SERP High

447-517 words vs 1,500+ word ranking guides for cost queries

Recommendation: Long-form cost guide asset

WhatsApp CTA hidden <1024px Medium

hidden lg:flex; only reachable via hamburger

Recommendation: Persistent mobile affordance

No testimonials at pricing moment Low

Social proof only on landing pages

Recommendation: Add 1-2 to pricing

2.9 Visual

Score: 88/100

What Works

- Profile photo circle-crops correctly both locales
- Zero horizontal overflow
- Dark mode clean
- Zero console errors

Findings

Dark-mode toggle 38x38px; submenu links 28px tall; constructoras mobile CTA below fold sliver Low

Three tap-target/fold minors

Recommendation: 44px targets; nudge CTA above fold

2.10 Sitemap

Score: **98/100**

What Works

- 248 URLs, 124/124 en/es parity
- 100% reciprocal hreflang + x-default
- No redirects/404s in sitemap
- 10 new URLs all correct

Findings

Landing-page count 21->23 **Info**

Under 30-page warning gate; new pages verified differentiated

Recommendation: Keep uniqueness bar as count grows

2.11 Backlinks

What Works

- grandbay-puntacana.com post live, 4 followed links (was 3+)
- GitHub profile link live (nofollow)

Findings

Insufficient data (Tier 0) **Info**

No Moz/Bing/GSC; new-mention sweep incomplete (no web search in agent env)

Recommendation: GSC OAuth unlocks Links report; free Moz key for DA/PA

3. Action Plan

Phase 1: Quick wins (code) Week 1

- \$95/mo pricing card + links
- ContactPage node fix
- SearchAction locale
- Service breadcrumb names
- mainEntityOfPage #webpage
- Homepage FAQ + FAQPage

Phase 2: Content & conversion Weeks 2-3

- Blog prose link rewrite round 2 (~21 links)
- Persistent mobile WhatsApp
- Cost-guide content asset
- About bio deepening
- Visual minors

Phase 3: Off-site (user-side) Ongoing

- Verify/claim GBP
- Google + Clutch reviews
- Citations (GoodFirms/DesignRush/DR)
- Client case-study backlinks

Phase 4: Perf & polish Month 2

- Chunk 8478 split/defer + /es LCP trace
- Local schema polish
- HowTo + question H2s
- sameAs socials

Data Sources & Methodology

Source	Description	Update Frequency
PageSpeed Insights API	Lighthouse lab audit (mobile emulation, Moto G Power, slow 4G)	Real-time
Chrome UX Report (CrUX)	28-day rolling field data from real Chrome users	Daily ~04:00 UTC
CrUX History API	25-week p75 trend data per metric	Weekly
Google Search Console	Search Analytics (clicks, impressions, CTR, position)	2-3 day lag
URL Inspection API	Per-URL index status, coverage state, crawl info	Real-time (2,000/day)
